About Us

Zeal Engineering provides project development and construction services to the mining and minerals, chemical, oil and gas, energy and infrastructure industries. Our management team has a combined experience of more than 50 years, and have completed projects in Africa, Asia, Australia, Europe, North & South America.

We are focused on the project management, engineering, construction, and commissioning of greenfield and brownfield projects. We are experienced in a diverse list of commodities and all project infrastructure.

CONSTRUCTION

Zeal Engineering provides multi-disciplinary construction services across all disciplines - earthworks, concrete, structural, mechanical, piping, electrical and instrumentation. We can provide turn-key solutions for mining, chemicals, oil and gas, energy or infrastructure projects.

We specialise in the execution of construction projects, maintenance programs and shutdowns. Zeal Engineering offers flexible execution strategies that are tailored to suit our clients' objectives and provide maximum value.

Our workforce is competent, compliant, qualified and inducted to major mine sites.

Earthworks & Concrete

Structural, Mechanical & Piping

Electrical & Instrumentation

At Zeal Engineering, we prioritise building strong, long-term relationships with our clients. We are fully committed to working with our clients in a positive, collaborative, and integrated manner to exceed your objectives.

Our commitment to precision, safety, and quality, coupled with our decisive and proactive project management skills, ensures the seamless execution of projects that not only meet industry standards but also exceed the expectations of our expanding client base.

EARTHWORKS AND CONCRETE

Zeal Engineering has significant expertise in earthworks and concrete construction projects. We can provide the following services to suit your project needs.

- Earthworks:
 - Clearing and grubbing,
 - Bulk earthworks,
 - Grading and leveling,
 - Trenching,
 - Sub grade preparation,
 - Back filling and compaction,
 - Final dressing,
 - Soil stabilisation,
 - Environmental remediation, and
 - Erosion control measures.
- Concrete:
 - Slabs,
 - Bunds,
 - Foundations,
 - Walls,
 - Beams, and
 - Precast elements.

STRUCTURAL, MECHANICAL AND PIPING

Zeal Engineering specialises in the execution of complex structural, mechanical, and piping construction projects across a wide range of facilities.

- Air strips, hangars, and maintenance facilities.
- Bore fields.
- Buried services.
- Camp accommodation, messing, and sporting facilities.
- Dewatering.
- Fire water systems.
- Mine services area infrastructure.
- Power stations.
- Processing plants.
- Pumping systems.
- River abstraction systems.
- Roads and bridges.
- Services.
- Sewage treatment.
- Tails handling and storage.
- Water storage dams.
- Water treatment.

ELECTRICAL AND INSTRUMENTATION

Zeal Engineering specialises in the execution of electrical and instrumentation construction projects. Building on a growing track record of delivering excellence, we bring expertise to translate engineering designs into tangible, robust systems tailored for the mining, resources, and energy industries.

- Back-up power.
- Communications systems.
- Control systems.
- Instrumentation.
- Power generation.
- Power transmission.

CONSTRUCTION PLANT & EQUIPMENT

Zeal Engineering has a range of construction plant and equipment to support your project.

- Mine spec vehicles.
- Access Equipment.
- Earthmoving Equipment.
- Lifting and Rigging Equipment.
- Generators.
- Welding equipment.
- Air compressors.
- Compactors.
- Fuel tanks.
- Site offices and Crib Rooms.
- Tooling containers.
- Tooling.

OUR GUARANTEES

- Competitive Rates.
- Qualified Professionals, Trades & Labour.
- Competent & Compliant Workforce.
- Swift, Seamless Mobilisations.
- Certified, Reliable Plant & Equipment.
- HSE & Quality Remain Paramount.

CLIENTS WE WORK WITH

At Zeal Engineering, our vision is to be a leader in the industry, developing high-value projects responsibly and sustainably, that exceed our client's expectations and contributes to the long-term economic, social, and environmental well-being of the communities in which we work.

Our commitment to precision, safety, and quality, coupled with our decisive and proactive project management skills, ensures the seamless execution of projects.

Jay Daviot
Director

zeal

[zi:] - noun

an ardent and eager interest in the pursuit of a cause or an objective

Core Values

The **foundation** of our organisation is based on the following values

RESPONSIBILITY

Act like an owner. We accept **responsibility** for our decisions, actions and results. We move forward with purpose.

COMMITMENT

We are **committed** to developing constructive, transparent, long-term relationships with our clients.

COLLABORATION

We **collaborate** with our clients and leading industry professionals to ensure optimal project outcomes.

INTEGRITY

We conduct ourselves **ethically** and **honestly** with **integrity**.

PRAGMATISM

We strive for excellence by aiming for the most simple, **pragmatic** and effective solution to any problem.

RESPECT

We strive to create a productive working environment with continual improvement by acting with humility and engaging people with **respect**.
