About Us

Zeal Engineering provides project development and construction services to the mining and minerals, chemical, oil and gas, energy and infrastructure industries. Our management team has a combined experience of more than 50 years, and have completed projects in Africa, Asia, Australia, Europe, North & South America.

We are focused on the project management, engineering, construction, and commissioning of greenfield and brownfield projects. We are experienced in a diverse list of commodities and all project infrastructure.

Workforce Solutions

We provide workforce solutions focussed on engineering and trades across all disciplines - earthworks, concrete, structural, mechanical, piping, electrical and instrumentation. We specialise in projects, maintenance, shutdowns, fabrication and manufacturing. Our workforce is competent, compliant, qualified and inducted to major mine sites.

At Zeal Engineering, we prioritise building strong, long-term relationships with our clients. We are fully committed to working with our clients in a positive, collaborative, and integrated manner to exceed your objectives.

Leveraging an extensive network of trades and professionals, we have access to a diverse talent pool that spans a wide range of roles and skill sets.

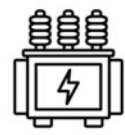

**Engineering &
Design**

**Earthworks &
Concrete**

**Structural,
Mechanical & Piping**

**Electrical &
Instrumentation**

TRADES & LABOUR

Zeal Engineering can provide workforce solutions to support your needs with the following trades.

- Blaster / painters.
- Boilermaker / welders.
- Carpenters.
- Civil workers - steel fixers and concreters.
- Crane operators.
- Dogmen.
- Electricians.
- Labourers.
- Mechanical fitters.
- Mobile plant operators.
- Peggies.
- Plumbers.
- Polywelders.
- Riggers.
- Rope access trades.
- Scaffolders.
- Sentries.
- Supervisors - Mech / Elec
- Trades assistants.
- Truck drivers.

ENGINEERING & MANAGEMENT

Zeal Engineering can provide workforce solutions to support your needs with the following engineering and management roles.

- Project Managers
- Construction Managers
- Commissioning Managers
- Project Engineers
- Site Engineers
- Superintendents
- QA/QC Personnel
- HSE Personnel
- Project Administrators
- Mobilisation Coordinators

CONSTRUCTION PLANT & EQUIPMENT

Zeal Engineering has a range of construction plant and equipment to support your project.

- Mine spec vehicles.
- Access Equipment.
- Earthmoving Equipment.
- Lifting and Rigging Equipment.
- Generators.
- Welding equipment.
- Air compressors.
- Compactors.
- Fuel tanks.
- Site offices and Crib Rooms.
- Tooling containers.
- Tooling.

OUR GUARANTEES

- Competitive Rates.
- Qualified Professionals, Trades & Labour.
- Competent & Compliant Workforce.
- Swift, Seamless Mobilisations.
- Certified, Reliable Plant & Equipment.
- HSE & Quality Remain Paramount.

CLIENTS WE WORK WITH

At Zeal

At Zeal Engineering, our vision is to be a leader in the industry, developing high-value projects responsibly and sustainably, that exceed our client's expectations and contributes to the long-term economic, social, and environmental well-being of the communities in which we work.

Our commitment to precision, safety, and quality, coupled with our decisive and proactive project management skills, ensures the seamless execution of projects.

zeal

[zi:l] - noun

an ardent and eager interest in the pursuit of a cause or an objective

Zeal Engineering employs a team of experienced project delivery professionals.

Jay Daviot | Managing Director

A mechanical engineer with 18 years' experience focusing on feasibility studies, detailed design and project execution in the mining industry. Jay has held project management, lead mechanical and lead project engineering roles in EPCM and Owner operated teams. Jay is a chartered Professional Engineer with Engineers Australia. MIEAust CPEng NER

James Schloffer | Study Manager

A chemical engineer with 15 years' professional mineral processing and hydrometallurgy experience gained across a breadth of commodities. James has worked across the full spectrum of mining including studies, metallurgical test-work, pilot plants, detailed engineering design, EPC & EPCM construction, commissioning and operations. James is a member of AusIMM.

Justin Sporre | Project Manager

Project Manager with over 18 years of Contracts, Project Engineering, Project Management, and Study Management experience. Justin has worked in Australia, Europe, North America and Africa. His experience in the minerals and metals industry spans the full project life cycle from feasibility through detailed design, construction and commissioning.

Core Values

The **foundation** of our organisation is based on the following values

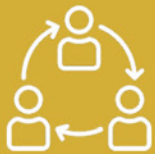

RESPONSIBILITY

Act like an owner. We accept **responsibility** for our decisions, actions and results. We move forward with purpose.

COMMITMENT

We are **committed** to developing constructive, transparent, long-term relationships with our clients.

COLLABORATION

We **collaborate** with our clients and leading industry professionals to ensure optimal project outcomes.

INTEGRITY

We conduct ourselves **ethically** and **honestly** with **integrity**.

PRAGMATISM

We strive for excellence by aiming for the most simple, **pragmatic** and effective solution to any problem.

RESPECT

We strive to create a productive working environment with continual improvement by acting with humility and engaging people with **respect**.
